Recovery Coordinator, TRANSITION HOUSE, INC.  
SINCE October 2017

*Now more than ever in my lifetime, I am able to understand the importance of Recovery and the role I can play in helping people in their path to wellness and recovery. As a Recovery Coordinator at Transition House, I am able to encourage people to live their best life. Reaching goals related to recovery and wellness takes hard work, dedication, and time. As an advocate for mental wellness, I am dedicated to ensuring that clients at Transition House have resources and support to help them along this journey. As a member of the team at TH, I see firsthand the struggles our clients face daily and their resilience inspires me to be better in everything I do.*
